

Stable Chamber – Stable Outcomes:

A New Level of Cataract Surgery

 Sunday, 10 October 2021
Hall 11, level 1

 11:45 AM – 12:45 PM (CEST)

A proper diagnostic can prepare you for a smooth cataract surgery. However, unforeseen situations can occur every time.

During this symposium our panel of renown experts will demonstrate how to handle cases from routine to unexpected situations in a safe and efficient environment.

Our program:

Rafael I. Barraquer, MD
Opening & Introduction

Sri Ganesh, MD
Chamber Stability: Safe Cataract Surgery in 2021

Philipp Eberwein, MD
Visual Performance and Stability of a Modified Aspheric Monofocal IOL

Florian A. Kretz, MD
Use the Advantages of a Digital Workplace in Modern Cataract Surgery
