

A non-incisional treatment runway for glaucoma

Join us to learn how multiple cases of glaucoma are being treated with non-incisional procedures. Patient selection, parameters, outcomes, best practices (e.g., pre-op, post-op, anesthesia), durability, and several other topics will be discussed.

MicroPulse Laser Trabeculoplasty

Stela Vujosevic, MD (Italy)

MicroPulse Transscleral Laser Therapy

Tomás Grippo, MD (Argentina) - Moderator
Ronald De Crom, MD (The Netherlands)

Continuous-wave Transscleral Cyclophotocoagulation

Richard K. Lee, MD, PhD (United States)
