### Suturing in cataract surgery

**Capsule Dye**

### Intra Ocular Lens (IOL)

- **IOL Material**
- **IOL Design**
- **Toric IOLs**
  - **Multifocal IOLs (mIOL)**
  - **Enhance depth of focus IOLs**
  - **Three-piece IOLs**
  - **Special IOLs**
- **Marking techniques**
- **Rotational stability**
- **Efficacy of mIOL**
- **Patient satisfaction using mIOL**
- **Complications and side effects of mIOL**
- **Anterior chamber IOLs**
- **Iris claw IOLs**

### Complications of cataract surgery

- **Intraoperative complications**
  - Posterior capsule rupture
  - Subchoroidal hemorrhage
  - Intraoperative floppy iris syndrome (IFIS)
  - Zonular instability
- **Postoperative complications**
  - Corneal edema
  - Cystoid macular edema
  - Retinal detachment
  - Elevated intraocular pressure
  - Secondary cataract
  - Toxic anterior segment syndrome (TASS)
  - Endophthalmitis
  - Ocular surface disease

### Anterior vitrectomy

### Femtosecond laser cataract surgery

### Secondary IOL Implantation

- **IOL Explantation**
  - Techniques to remove the IOL
- **Patients’ outcomes of cataract surgery**
  - Patient satisfaction
  - Refractive surprise
  - Target refraction
- **Postoperative management**
  - Non-steroidal anti-inflammatory drugs (NSAIDs)
  - Steroids
  - Dropless cataract surgery
